

100% MADE IN THE USA

720-940-8469 Colorado

Ours

Theirs

2018 UL Approval (File#E494695)

Our parts have been put up against the most up to date technology and standards of testing, while others are grand fathered in on older regulations.

Patent Pending Internal Ground

Eliminates the need for an Ext. Bonding Jumper. Saving cost on materials, labor and installation,

Comes complete with certified installed Nipple.

With this step happening during the manufacturing process we can certify proper installation and that no functionality of the part is compromised. This also saves time in the field by allowing the crew to direct connect to the run. (Optional)

Symmetrical Steel Body

Improved consistency over Malleable Iron or ZA12. Improves efficiency and eliminates unnecessary waste.
